UI Children

What is UI Children?

UI Children lists child pages in an intuitive list starting with the Confluence page of your choice.

Live Example

This is what the UI Children looks like and how it works

Refined Toolkit pricing (Server and Data Center)

Using UI Children

To add the UI Children macro to a page

1. In the Confluence editor, choose Insert > Other Macros.

2. Find and select the required macro.

   Speed up macro entry with autocomplete: Type { and the beginning of the macro name, to see a list of suggested macros.

To edit an existing macro

1. Click the macro placeholder and choose Edit.
The macro editor will be opened and you may edit your macro settings.

Wiki markup

Wiki markup is no longer supported.
