Keyboard shortcuts

RefinedTheme comes with a handy keyboard shortcut menu, and it also supports all Confluence shortcuts, learn more below.

On this page

- Keyboard navigation menu
  - Included options
  - All keyboard shortcuts
    - Do you want a different highlight colour?

Keyboard navigation menu

Press n to show the keyboard navigation menu, use the arrows to navigate to an option and release to execute your choice. The keyboard navigation menu is adjusting itself depending on what kind of content the user is currently viewing.

Included options

1. Site Home
2. Category menu
3. Sidebar
4. My Work
5. Activity stream
6. Search
7. Blog and blogposts

This functionality is available for version 3.3 and above.
All keyboard shortcuts

<table>
<thead>
<tr>
<th>Key</th>
<th>Description</th>
<th>Theme version</th>
</tr>
</thead>
</table>

| A (shift + a) | Access the activity stream. | 3.1  

Do you want a different highlight colour?

From RefinedTheme 5.1 you can use the theme editor to set the colour of your keyboard shortcuts highlight colour. Open your theme in the editor, and navigate to EXTRAS. At the bottom of the right pane you’ll find the setting.
