Macro Setup

Space news

Macro key: rw-space-news (or space-news)

Macro body: None.

Promoted: Global Space Layout, Space Layouts.

Using the Space news macro

To add the Space news macro to a page
1. In the Confluence editor, choose Insert > Other Macros.
2. Find and select the Space news macro.

To add the Space news macro to a Space layout
1. In the Space Layout editor, open the Macro Browser and select RefinedWiki’s macro Space news, or search for rw-space-news or space-news.

Parameters

Parameters are options that you can set to control the content or format of the macro output. When the parameter name used in Confluence storage format or wiki markup is different to the label used in the macro browser, it will be listed below in brackets (example).
<table>
<thead>
<tr>
<th>Parameter</th>
<th>Default</th>
<th>Description</th>
<th>Available since</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title (title)</td>
<td></td>
<td>The title for this macro.</td>
<td>4.0</td>
</tr>
<tr>
<td>Collapsed (collapsed)</td>
<td></td>
<td>By default the space news is expanded to show the news. Check or uncheck to expand or collapse the macro.</td>
<td>2.2</td>
</tr>
<tr>
<td>Max items (max)</td>
<td>3</td>
<td>Set the maximum number of news to be displayed.</td>
<td>3.1</td>
</tr>
<tr>
<td>Labels (labels)</td>
<td></td>
<td>Filter the results by labels. Specify one or more label values, separated by a comma, and the macro will only display space news items that are tagged with those label(s).</td>
<td>4.1</td>
</tr>
</tbody>
</table>

The macro will be hidden if there are no matching blogposts on the space where it is placed. When the first blogpost that matches the macro-setup show up, so will the macro.
