

Installing Refined for Jira

Refined is installed via Atlassian Marketplace

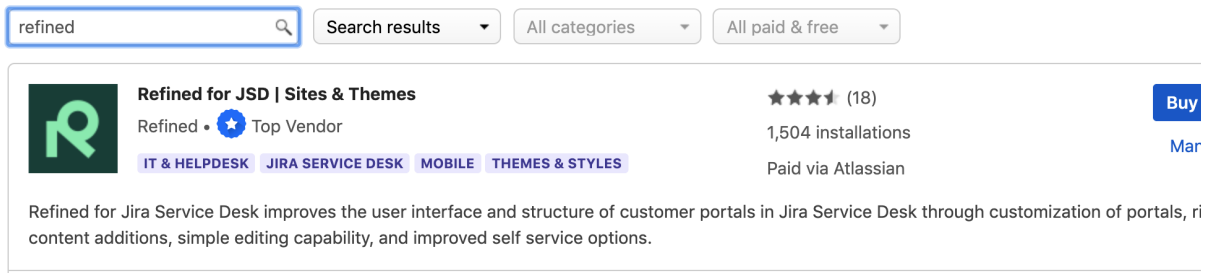

1

Go to: Jira Administration > Manage apps

2

Search for: Refined

A screenshot of the Atlassian Marketplace search results for 'Refined'. The search bar contains 'refined'. Below the search bar are filters for 'Search results', 'All categories', and 'All paid & free'. The search results show a card for 'Refined for JSD | Sites & Themes' by 'Refined • Top Vendor'. The card includes a green logo, a star rating of 4.5 (18 reviews), 1,504 installations, and a 'Buy' button. Below the card, there are tags for 'IT & HELPDESK', 'JIRA SERVICE DESK', 'MOBILE', and 'THEMES & STYLES'. A description below the tags reads: 'Refined for Jira Service Desk improves the user interface and structure of customer portals in Jira Service Desk through customization of portals, ri content additions, simple editing capability, and improved self service options.'
