Data Center

Version 7.0.1 is a bug-fix release addressing the following.

Bug-fixes

- Fixed an issue where upgrading with legacy or corrupt advanced theme still present would cause the app to crash and not work properly
- Fixed an issue where the Refined Sites would not render properly while using Internet Explorer 11.
- Improved the visibility of dates in the [News module](#) listings when using Image feed.
- Fixed an issue where links weren't clickable in the [Spaces module](#).
- Addressed a compatibility issue where K15t's Scroll Version didn't work with the Refined page tree macro
- Fixes print styles to only include page content when printing
- Improved the global menu render for small screens by rendering the icons smaller.
